Company Overview

Since 2000, BMT Consulting, Inc. has demonstrated a proven track record of gaining the necessary knowledge to satisfy the customer by meeting and often exceeding the customer's requirements. We believe in continuous learning and being open to working closely with the stakeholders to identify solutions to complex challenges. BMT specializes in the implementation and upgrade of existing complex applications and systems to include the complete process from assessment to maintenance in the areas of data warehousing, business intelligence, information technology security, and quality management.

BMT has many years of experience in system architecture analyzing, designing, developing, supporting, maintaining, and testing current and new systems. BMT staff members are experienced professionals certified to use Oracle's Database which offers the industry's first and only embedded online analytical processing (OLAP) server.

The BMT Consulting Team are subject matter experts in the areas of Program/Project Management, Business Requirements Definition, RFP Development, Vendor Evaluation and Selection Process, Business Case Development, Impact Analysis, Change Management, Software Implementation, Financial Analysis, Auditing, Business Process Analysis, and Software Development and Testing.
